Feature Updates, Bug Fixes, and How Tos

Enhancements and Bug Fixes

- **Visual Link Collections Not Adding Alt Text**

Even though images in your Media Gallery have alt text, that alt text was not being brought over into Visual Link Collections. The fix ensures screen readers receive the correct description for all images in link collection lists.

- **Alt Text Error in Drupal Media Library**

If you received an error that you're missing alt text when adding an image to Drupal Media Library even before you had a chance to enter it, this error has been fixed.

How To: Clear Quality Assurance Warnings in Acquia Optimize

- **Is the image alternative text descriptive enough?**

If your image alt text is one word or a vague description like **screenshot**, you may see this warning. Remember to make your alt text descriptive enough for anyone using a screen reader to understand the context.

- **Are all visual lists correctly coded as lists?**

This means don't type numbers, letters, or dashes before your list items. Use the Drupal toolbar to choose a bulleted or numbered list option to create your list.

Accessibility Assistance Requests in Qualtrics

If you haven't logged in to Qualtrics in the last 30 days and are unable to log in, please submit a Qualtrics request through ServiceDesk Plus at [New Request - State of Iowa](#).

We've noticed a growing backlog, and your attention to these items helps keep everything moving smoothly. You can find information on the DX Training site that walks through the [Accessibility Assistance Request process](#).

We will be holding a [15-minute open session](#) on September 10, 2026, at 2:30 p.m. to go over how to work through and resolve accessibility tickets in Qualtrics.
